

Vineyard Christian Fellowship Church

Beavercreek, Ohio

This project involved the renovation of an existing Furrows Home Center into a church facility for the Vineyard Christian Fellowship. Approximately 36,000 SF of the existing 50,000 SF building was included in the renovation. Extensive site work was also included in the project.

This project had extremely tight budget and schedule constraints. ABS “value engineered” the project to bring the job in on budget and completed the work in less than six months to meet the Church’s schedule.
